REMARKS

The application was previously allowed, however, several grammatical errors were noted and an IDS was preferred to be submitted. This amendment further defines and clarifies the presently claimed invention as part of a previously submitted RCE that included an IDS therewith.

The present application is deemed to be in proper condition for allowance and favorable action is requested.

Respectfully submitted,

Dated: January 4, 2005

Leonard L. Lewis
Reg. No. 31,176
